Contents

NUMBER 1, MARCH 1993

P.A. HOLLINGTON, A.H. MARSHALL and D.H. HIDES. The effect of row spacing and cover-crop on stolon development and the seed yield components of white clover cultivars of contrasting leaf size 1

C. ROYO, E. MONTESINOS, J. L. MOLINA-CANO and J. SERRA. Triticale and other small grain cereals for forage and grain in Mediterranean conditions 11

M. LL. JONES and M.O. HUMPHREYS. Progress in breeding interspecific hybrid ryegrasses 18

H.J. BROAD and M.N. HOUGH. The growing and grazing season in the United Kingdom 26

Y.J. REES, B.F. PAIN, V.R. PHILLIPS and T.H. MISSELBROOK. The influence of surface and sub-surface application methods for pig slurry on herbage yields and nitrogen recovery 38

I. SELMER-OLSEN, A.R. HENDERSON, S. ROBERTSON and R. McGINN. Cell wall degrading enzymes for silage. 1. The fermentation of enzyme-treated ryegrass in laboratory silos 45

I. SELMER-OLSEN, A.R. HENDERSON, S. ROBERTSON and R. McGINN. Cell wall degrading enzymes for silage. 2. Aerobic stability of enzyme-treated laboratory silages 55

O.D. DAVIES and P.M. HAIGH. A comparison of formic acid and an acid-salt type additive on the performance of dairy cows in early lactation 64

Z.G. WEINBERG, G. ASHBELL, A. AZRIELI and I. BRUKENTAL. Ensiling peas, ryegrass and wheat with additives of lactic acid bacteria (LAB) and cell wall degrading enzymes 70

S.V. PASUMARTY, T. MATSUMURA, S. HIGUCHI and T. YAMADA. Causes of low seed set in white clover (*Trifolium repens* L.) (Research Note) 79

L.R. MYTTON, A. CRESSWELL and P. COLBOURN. Improvement in soil structure associated with white clover (Research Note) 84

NUMBER 2, JUNE 1993

J.T. DOUGLAS and C.E. CRAWFORD. The response of a ryegrass sward to wheel traffic and applied nitrogen 91

J.D. LEAVER and R.C. CAMPLING. The effect of offering a brewers grains/treated straw supplement to grazing dairy cows 101

S.T. MORRIS, S.W. HIRSCHBERG, A. MICHEL, W.J. PARKER and S.N. McCUTCHEON. Herbage intake and liveweight gain of bulls and steers continuously stocked at fixed sward heights during autumn and spring 109

G.A. JUNG and J.A. SHAFFER. Component yields and quality of binary mixtures of lucerne and perennial, Italian or short rotation hybrid ryegrasses 118

R.H. MEREDITH and I.B. WARBOYS. Accelerated drying of cut lucerne (*Medicago sativa* L.) by chemical treatments based on inorganic potassium salts or alkali metal carbonates 126

E.D. WILLIAMS and M.J. HAYES. Growth

and colonization of a range of white clover cultivars strip-seeded into an upland perennial ryegrass sward 136

S. JAAKKOLA and P. HUHTANEN. The effects of forage preservation method and proportion of concentrate on nitrogen digestion and rumen fermentation in cattle 146

P. HUHTANEN and S. JAAKKOLA. The effects of forage preservation method and proportion of concentrate on digestion of cell wall carbohydrates and rumen digesta pool size in cattle 155

D.I. GIVENS, ANGELA R. MOSS and A.H. ADAMSON. Influence of growth stage and season on the energy value of fresh herbage. 1. Changes in metabolizable energy content 166

D.I. GIVENS, ANGELA R. MOSS and A.H. ADAMSON. Influence of growth stage and season on the energy value of fresh herbage. 2. Relationships between digestibility and metabolizable energy content and various laboratory measurements 175

D.H. HIDES, C.A. KUTE and A.H. MARSHALL. Seed development and seed yield potential of Italian ryegrass (*Lolium multiflorum* Lam.) populations 181

P.C. CHIY and C.J.C. PHILLIPS. Sodium fertilizer application to pasture. 1. Direct and residual effects of pasture production and composition 189

P.C. CHIY, C.J.C. PHILLIPS and M.R. BELLO. Sodium fertilizer application to pasture. 2. Effects on dairy cow production and behaviour 203

NUMBER 3, SEPTEMBER 1993

D.A. DAVIES, M. FOTHERGILL and C.T. MORGAN. Assessment of contrasting perennial ryegrasses, with and without white clover, under continuous sheep stocking in the uplands. 5. Herbage production, quality and intake in years 4–6 213

R.D. SHELDRICK, R.H. LAVENDER and T.M. MARTYN. Management options for increasing white clover contents of swards, without resowing 223

D. WILMAN and S.P. WILLIAMS. A comparison of grass/white clover and grass silages offered to dairy cows as the sole feed 231

J.A. LAWS. A comparison of the output from permanent swards containing clover or receiving nitrogen fertilizer when continuously grazed by ewes and lambs 238

P.C. CHIY, C.J.C. PHILLIPS and H.M. OMED. Sodium fertilizer application to pasture. 3. Rumen dynamics 249

P.C. CHIY and C.J.C. PHILLIPS. Sodium fertilizer application to pasture. 4. Effects on mineral uptake and the sodium and potassium status of steers 260

L. THOMPSON. The influence of the radiation environment around the node on morphogenesis and growth of white clover (*Trifolium repens*) 271

G. SWIFT, J.E. VIPOND, T.H. McCLELLAND, A.T. CLELAND, J.A. MILNE and E.A. HUNTER. A comparison of diploid and tetraploid perennial ryegrass and tetraploid ryegrass/white clover swards under continuous sheep stocking at controlled sward heights. 1. Sward characteristics 279

J.E. VIPOND, G. SWIFT, T.H. McCLELLAND, J. FITZSIMONS, J.A. MILNE and E.A. HUNTER. A comparison of diploid and tetraploid perennial ryegrass and tetraploid ryegrass/white clover swards under continuous sheep stocking at controlled sward heights. 2. Animal production 290

A.H. MARSHALL, P.A. HOLLINGTON and

D.H. HIDES. Spring defoliation of white clover seed crops. 1. Inflorescence production of contrasting white clover cultivars 301

A.H. MARSHALL, P.A. HOLLINGTON and D.H. HIDES. Spring defoliation of white clover seed crops. 2. Potential harvestable seed yield and seed yield components of contrasting white clover cultivars 310

NUMBER 4, DECEMBER 1993

D.A. DEETZ, J.H. HARRISON and D.W. EVANS. Impact of non-corrosive forage stabilizer on chemical composition and storage characteristics of lucerne hay 317

P.C.J. GABRIËLS and J.V. VAN DEN BERG. Calibration of two techniques for estimating herbage mass 329

D.R. BUXTON and E.M. LENTZ. Performance of morphologically diverse orchardgrass clones in spaced and sward plantings 336

P. HUHTANEN. The effects of concentrate energy source and protein content on milk production in cows given grass silage *ad libitum* 347

R.A. SHELBY and L.W. DALRYMPLE. Long-term changes of endophyte infection in tall fescue stands 356

A.J. ATZEMA. The effect of the weather on the drying rate of cut diploid and tetraploid ryegrass (*Lolium perenne* L.) and diploid hybrid ryegrass (*Lolium perenne* × *L. multiflorum*) 362

M. FOTHERGILL and D.A. DAVIES. White clover contribution to continuously stocked sheep pastures in association with contrasting perennial ryegrasses 369

J.-J. CHOUNG and D.G. CHAMBERLAIN. Effects of addition of lactic acid and post-ruminal supplementation with casein on the nutritional value of grass silage for milk production in dairy cows 380

O.J. CACHO. A practical equation for pasture growth under grazing 387

M. MERCHANT. The potential for control of the soft rush (*Juncus effusus*) in grass pasture by grazing goats 395

R.H. ARMSTRONG, M.M. BEATTIE and E. ROBERTSON. Intake and digestibility of components of forage rape (*Brassica napus*) by sheep 410

G.H. ACUÑA P. and D. WILMAN. Some effects of added phosphorus on perennial ryegrass–white clover swards 416

Author Index 421
